13:00-13:45

Special Lecture

Chair: Yoshiyuki Takei (Mie University, Mie, Japan)

Speaker: Motomu Shimaoka (Mie University, Mie, Japan)

Title: Conformational Regulation of Integrin Activation

13:45-14:15

Chair: Prof. Nobuhiro Sato (Juntendo University, Tokyo, Japan)

Speaker: Prof. Bin Gao (NIAAA, NIH, MD, USA)

Title: Therapeutic potential of interleukin-22 in alcoholic liver disease and pancreatitis

14:15-14:45

Chair: Prof. Hidekazu Tsukamoto (University of Southern California, CA, USA)

Speaker: Prof. Laura Nagy (Cleveland Clinic, NE, USA)

Title: Protective role of hemoxygenase-1 and CO in ethanol-induced liver injury in mice

14:45-15:15

Chair: Prof. Yasusi Matsuzaki (Tokyo Medical University Ibaraki Medical Center, Ibaraki, Japan)

Speaker: Prof. Gavin E Arteel (University of Louisville Health Sciences Center, KY, USA)

Title: ECM and ALD: Beyond collagen and before fibrosis

15:15-15:45

Chair: Prof. Kenji Fujiwara (Yokohama Rosai Hospital, Kanagawa, Japan)

Speaker: Prof. John Lemasters (Medical University of South Carolina, SC, USA)

Title: Regulation of alcohol metabolism by voltage dependent anion channels

15:45-16:15

Chair: Prof. Helmut Seitz (University of Heidelberg, Germany)

Speaker: Prof. Hidekazu Tsukamoto (University of Southern California, CA, USA)

Title: Morphogens in alcoholic liver fibrosis and cancer

16:15-

Closing remarks: Yoshiyuki Takei (Mie University, Mie, Japan)
