

目 次

第7回アジアマイコプラズマ学会
会 長：神谷 茂（杏林大学医学部）
第45回日本マイコプラズマ学会学術集会
会 長：見理 剛（国立感染症研究所）
会 期：2018年5月18日（金）～20日（日）
会 場：国立感染症研究所戸山庁舎

■総 説

– 第20回北本賞受賞者総説 –

ゲノムから解き明かすファイトプラズマの生存戦略 1

法政大学 生命科学部 応用植物科学科 大島 研郎

Mycoplasma pneumoniae の遺伝子型別法の比較 9

国立感染症研究所 細菌第二部 見理 剛

■ The Joint Congress of the 7th Meeting of the Asian Organization for Mycoplasmaology(AOM) and the 45th Meeting of the Japanese Society of Mycoplasmaology(JSM)

【Special Lecture】

Molecular biological properties of the phytoplasmas, plant pathogenic bacteria 23

Shigetou Namba

Graduate School of Agricultural and Life Sciences, The University of Tokyo, Japan

【Educational Lecture】

Mycoplasma testing for cell-based medicinal products 27

Tsuguo Sasaki

Faculty of Pharmaceutical Sciences, Musashino University, Japan

【Kitamoto Award Lecture】

Molecular characterization of phytoplasma by genomic research 31

Kenro Oshima

Department of Clinical Plant Science, Faculty of Bioscience and Applied Chemistry, Hosei University, Japan

【Luncheon Seminar】

The role of *Mycoplasma pneumoniae* infection in the initial onset and exacerbations of asthma 35

Hidehiro Watanabe

Department of Infectious Diseases and Prevention, Tokyo Medical University, Japan

【Symposium】

Genetic characterization of *Mycoplasma pneumoniae* in Japan 39

Tsuyoshi Kenri

Department of Bacteriology II, National Institute of Infectious Diseases, Japan

In vivo and *in vitro* immune responses stimulated by *Mycoplasma pneumoniae* 40

Satoshi Kurata

Department of Infectious Diseases, Kyorin University School of Medicine, Japan

Characteristics of drug resistance of <i>Mycoplasma pneumoniae</i> isolates	41
Miyuki Morozumi <i>Department of Infectious Diseases, Keio University School of Medicine, Tokyo, Japan</i>	
Genomic structure of phytoplasma and its pathogenesis	42
Kenro Oshima <i>Department of Clinical Plant Science, Faculty of Bioscience and Applied Chemistry, Hosei University, Japan</i>	
Gliding motility of <i>Mycoplasma</i> developed from ATP synthase	43
Makoto Miyata <i>Graduate School of Science, Osaka City University, The OCU Advanced Research Institute for Natural Science and Technology, Japan</i>	
Molecular speedometer for gliding motility of <i>Mycoplasma pneumoniae</i>	44
Daisuke Nakane <i>Department of Physics, Gakushuin University, Tokyo, Japan</i>	
Pathogenesis of <i>Ureaplasma</i> infection in perinatal and neonatal medicine	45
Michinobu Yoshimura <i>Department of Developmental Medicine, Research Institute, Osaka Women's and Children's Hospital, Izumi, Osaka, Japan</i>	
Antimicrobial resistance of <i>Mycoplasma genitalium</i> strains isolated in Japan.....	46
Ryoichi Hamasuna <i>Department of Urology, Shin-Kokura Hospital, Japan</i>	
Epidemiology of <i>Mycoplasma pneumoniae</i> pneumonia with special reference to the emergence of macrolide- resistance in Japan - Possible reasons for the initial increase and the following decrease of macrolide-resistance of <i>M. pneumoniae</i> in Japan -	47
Mitsuo Narita <i>Department of Pediatrics, Sapporo Tokushukai Hospital, Japan</i>	
The epidemical features of <i>Mycoplasma pneumoniae</i> infection among children throughout Japan in recent 10 years	46
Tomohiro Oishi <i>Department of Pediatrics, Kawasaki Medical School, Japan</i>	
Relationships among clinical features, HRCT findings, and a visual scoring system in patients with <i>Mycoplasma pneumoniae</i> pneumonia	48
Takeshi Saraya <i>Department of Respiratory Medicine, Kyorin University School of Medicine, Japan</i>	
Analysis of immunosuppression mediated by the PD-1/PD-L1 pathway in bovine mycoplasmosis	49
Shinya Goto <i>Department of disease control, Graduate School of veterinary medicine, Hokkaido University, Japan</i>	
Immune response of <i>Mycoplasma bovis</i> in bovine.....	51
Satoshi Gondaira <i>Animal health, Faculty of Veterinary Medicine, Rakuno Gakuen University, Japan</i>	

[General Presentation(Free Paper)]

Impact of point of care molecular testing for <i>Mycoplasma pneumoniae</i> pneumonia	55
Yusaku Akashi <i>Division of Infectious Diseases, Department of Medicine, Tsukuba Medical Center Hospital, Japan</i>	

Chemosynthetic homologues of *Mycoplasma pneumoniae* β -glycolipid antigens for the diagnosis of mycoplasma infectious diseases56

Kazuo Fukuda

Molecular Chirality Research Center, Graduate School of Advanced Integration Science, Chiba University, Chiba, Japan

Mycoplasma pneumoniae and *Mycoplasma fermentans*-associated psychomotor deterioration, movement disorders without respiratory symptom: Case report57

Kazuhiro Matsuda

Mycoplasma Infectious Diseases Research Center, M Bio Technology Inc., Japan

Inducible CRISPRi in the minimal mycoplasma58

Shigeyuki Kakizawa^{1,2}

¹*Synthetic Biology Group, J. Craig Venter Institute, USA*

²*National Institute of Advanced Industrial Science and Technology, Japan*

Activation of NLRP3 inflammasome in macrophages by mycoplasmal lipoproteins and lipopeptides59

Ayumi Saeki

Department of Oral Molecular Microbiology,

Faculty of Dental Medicine and Graduate School of Dental Medicine, Hokkaido University, Sapporo, Japan.

Gliding machinery of *Mycoplasma mobile* visualized by high-speed atomic force microscopy60

Kohei Kobayashi

Department of Biology, Osaka City University, Japan

Structural and functional analyses of five MreB proteins involved in the swimming motility of *Spiroplasma eriocheiris*61

Daichi Takahashi

Department of Biology, Faculty of Science, Osaka city University, Japan

【General Presentation(Poster)】

Length of cytoskeletal core acts as a speedometer in the gliding motility of *Mycoplasma pneumoniae*65

Kohki Murata

Department of Physics, Gakushuin University, Tokyo, Japan

Adjunctive corticosteroid therapy for inpatients with *Mycoplasma pneumoniae* pneumonia64

Masato Tashiro^{1,2}

¹*Department of Infectious Diseases, Nagasaki University Graduate School of Biomedical Sciences, Nagasaki, Japan*

²*Nagasaki University Infection Control and Education Centre, Nagasaki University Hospital, Nagasaki, Japan*

The molecular epidemiology of respiratory pathogens associated with asthma attacks: a single-center observational study in Japan67

Takeshi Saraya

Kyorin University School of Medicine, Department of Respiratory Medicine, Tokyo, Japan

Gliding behavior analyses of *Mycoplasma gallisepticum*, *Pneumoniae*-type gliding mechanism66

Masaki Mizutani

Graduate School of Science, Osaka City University, Japan

Bovine endocarditis caused by *Mycoplasma bovis*69

Takuya Kanda^{1,2}

¹*Graduate School of Medicine and Veterinary Medicine, University of Miyazaki, Miyazaki, Japan*

²*Shibushi Meat Inspection Center, Kagoshima Prefectural Government, Shibushi, Japan*

Type II restriction modification system in <i>Ureaplasma parvum</i> OMC-P162 strain	70
Heng Ning Wu <i>Department of Developmental Medicine, Research Institute, Osaka Women's and Children's Hospital, Japan</i>	
Effect of MreB depolymerization on helicity-switching swimming motility in crustacean pathogen, <i>Spiroplasma eriocheiris</i>	71
Yuya Sasajima <i>Graduate School of Science, Osaka City University, Japan</i>	
Swimming mechanism suggested by structure study of <i>Spiroplasma eriocheiris</i>	72
Peng Liu ^{1,2,3} ¹ <i>Graduate School of Science, Osaka City University, Japan</i> ² <i>College of Life Sciences, Nanjing Normal University, P.R. China</i> ³ <i>Institute of Pathogenic Biology, University of South China, P.R. China</i>	
First characterization of transcription start sites of phytoplasma	73
Kensaku Maejima <i>Department of Agricultural and Environmental Biology, Graduate School of Agricultural and Life Sciences, The University of Tokyo, Japan</i>	
Characterization of a secreted protein POSE4 from poinsettia branch-inducing phytoplasma	74
Ai Ito <i>Faculty of Bioscience, Hosei University, Japan</i>	
Phylogen induces phyllody symptoms in diverse plant species through degradation of their floral MADS domain transcription factors	75
Nozomu Iwabuchi <i>Graduate School of Agricultural and Life Sciences, The University of Tokyo, Japan</i>	
Identification of a new phytoplasma from diseased coconut and banana in Papua New Guinea	76
Akio Miyazaki, <i>Graduate School of Agricultural and Life Sciences, The University of Tokyo, Japan</i>	
Identification of ' <i>Candidatus</i> Phytoplasma malaysianum' associated with <i>Elaeocarpus</i> yellows	77
Ai Endo <i>Faculty of Bioscience, Hosei University, Japan</i>	
【国際学会参加報告】	79
