

THE UNIVERSITY OF TOKYO

Opportunities for collaborative drug discovery, antibody humanisation and diagnostics

MRC Technology is working with the University of Tokyo to find new projects for its collaborative drug discovery and diagnostics development programmes. Come along to our seminar and discover how to progress your research on small molecule, therapeutic antibody or diagnostic targets.

Seminars **Tues 20th Jan**

Venue : 東大病院 入院棟15階 大会議室 (説明会)

09:00 Overview of MRC Technology -
and outlining collaboration

15:00 opportunities **入院棟15階 大会議室**

Dr John Kelly, MRC Technology

10:00 1 to 1 sessions with scientists,
and talking in detail about specific
16:00 projects. Each meeting will last
approximately 30-45 mins so

places are limited. **入院棟15階 中会議室
(大会議室 向い側)**

To register and book 1 to 1 sessions contact
