

5th Japanese - Chinese Renal Pathology Conference

Time table

Oct 7, 2016

Welcome dinner 18:30-20:00

“Tofuro” (1-24-1 B2F Nishi-shinjuku, Shinjuku-ku, Tokyo)

Oct 8, 2016

Lunch & Business meeting 11:15-12:00

TKP conference center, meeting room 5A

5th Japanese Chinese Renal Pathology Conference

Keio Plaza Hotel, 3F, Grace Room, Nishi-shinjuku, Shinjuku-ku, Tokyo

Welcome address:

12:30-12:35: Michio Nagata, MD., President of the Japanese Renal Pathology Society, University of Tsukuba, Faculty of Medicine, Ibaraki.

Mini lecture 1 : (Chairpersons: Akira Shimizu MD & Shaojun Liu MD)

12:35-13:05

Pathology of endothelial injury in antibody mediated rejection.

Kazuho Honda, MD., Department of Anatomy, Showa University School of Medicine, Tokyo.

Case discussion part I (Chairpersons: Zhigang Zhang MD & Ryuji Ohashi MD)

13:05-13:25

Case report: IgA related anti-glomerular basement membrane glomerulonephritis.

Guming Zou, MD., Division of Nephrology, China-Japan Friendship Hospital, Beijing.

13:25-13:45

Nephropathic juvenile cystinosis.

Masako Otani, MD., Division of Diagnostic Pathology, Yokohama City University Medical Center, Kanagawa.

Case discussion part II (Chairpersons: Junki Koike MD & Suxia Wang MD)

13:45-14:05

Acute kidney injury in a patient after contrast medium injection, case report.

Hua Su, MD, Department of Nephrology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology, Wuhan.

14:05-14:25

AL or AHL amyloidosis: How to diagnose AHL amyloidosis?

Shun Manabe, MD., ¹Department of Nephrology, Yokohama Rosai Hospital, Kanagawa, ²Kidney and Vascular Pathology, Faculty of Medicine, University of Tsukuba, Ibaraki.

Break 14:25-14:40

Mini lecture 2: (Chairpersons: Gang Liu MD & Kensuke Joh MD)

14:40-15:10

The morphological spectrum of monoclonal gammopathy of renal significance (MGRS).

Suxia Wang, MD., Laboratory of Electron Microscopy, Pathological Center, Peking University First Hospital; Institute of Nephrology, Peking University, Beijing.

Case discussion part III (Chairpersons: Akinori Hashiguchi MD & Liyi Xie MD)

15:10-15:30

A case of recurrent hematuria and proteinuria with mesangial IgA deposition and glomerular basement membrane abnormality possibly due to a novel missense mutation in the COL4A3 gene.

Keiko Yano MD., Department of medicine, Division of Nephrology and Dialysis, Kitano Hospital, The Tazuke Kofukai Medical Research Institute, Osaka.

15:30-15:50

HIF/miR-21 in ischemia/reperfusion injury.

Fang Yi, MD., Division of Nephrology, Zhongshan Hospital, Fudan University, Shanghai Institute of Kidney and Dialysis, Shanghai Key lab of Kidney and Blood Purification, Shanghai.

15:50-16:10

A case of MPGN with diffuse C4d deposition.

Keisuke Kawashima, MD., Department of Medicine 2, Hokkaido University, Sapporo.

16:10-16:25

Award ceremony for excellent presentation.

16:25-16:30

Closing address : Gang Liu, MD., Institute of Nephrology, Peking University First Hospital, Beijing.

Dinner & night cruise at Tokyo Bay ("Goزابune tour"):

Hinode-sanbashi (Hamamatsucho) 19:15-21:15
