

25<sup>th</sup>  
INTERNATIONAL SYMPOSIUM  
ON GLYCOCONJUGATES

The central graphic features a blue silhouette of a city skyline. The number '25<sup>th</sup>' is integrated into the skyline, with the '5' being the tallest building. Below the skyline, the text 'INTERNATIONAL SYMPOSIUM ON GLYCOCONJUGATES' is written in a blue, sans-serif font.

MILANO,  
AUGUST 25<sup>TH</sup> - 31<sup>ST</sup> 2019

CO-CHAIRS:  
Prof. Sandro Sonnino  
Prof. Alessandro Prinetti

# Glyco25

## Symposium:

***Glycation – protein-based glycoconjugates on lysine, arginine and N-terminus.  
Relation to aging, diabetes and other health impairments***

**Chairs: Paul J Thornalley & Naila Rabbani (QBRI, Qatar & University of Warwick, UK)**

- **“Physiological glycation by glucose and reactive dicarbonyl metabolite, methylglyoxal – targets, hotspots and engagement with the unfolded protein response”  
Paul J Thornalley (QBRI, Doha, Qatar)**
- **“Tissue, serum and urine glycation markers as long-term prognosticators of complications in Type 1 diabetes”  
Vincent Monnier (Case Western Reserve, Cleveland, Ohio, USA)**
- **“Application of glycated proteins and related analytes in clinical diagnosis. Beyond glycated hemoglobin and diabetes”  
Naila Rabbani (University of Warwick, Coventry, UK)**

**+ Three short talks selected from submitted abstracts**

Please submit yours abstracts at <http://www.glyco25.org/abstract/>  
For further information see the Glyco25 www site or contact the local organisers.

**Wednesday 28<sup>th</sup> August 2019, 9:00 – 12:00**
