一般演題 1（早期キャリア研究者奨励賞候補演題）　　　14:15～15:15
Oral Session 1「Early Career Presentation Award Review」
座長：足立　雄哉（順天堂大学医学部　生理学第一講座）
　　　雨宮　史織（東京大学医学部附属病院　放射線部）
Chairs：Yusuke Adachi（Division of Physiology I, Faculty of Medicine, Juntendo University）
　　　Shiori Amemiya（Department of Radiology, The University of Tokyo Hospital）

O1-1　　Resting-state functional connectivity reveals diagnostic signatures in mood disorders
Suzuka Narukawa
Brain Information Communication Research Laboratory Group, Advanced
Telecommunications Research Institute International (ATR)

O1-2　　Structural Brain Aging and Its Links to Sociability and Genetic Polymorphisms in Common
Marmosets
Akiko Uematsu
BDR Laboratory for Brain Connectomics Imaging, RIKEN

O1-3　　Introspection-driven causal attributions of unexpected outcomes to the self or the
environment in the anterior prefrontal cortex
Zonghao Xin
RIKEN

O1-4　　Learning-Related Restructuring of Intracortical Population Manifolds During a Neural
Typing Task.
Hiroaki Hashimoto
Center for Neurotechnology and Neurorecovery, Department of Neurology, Massachusetts
General Hospital

O1-5　　Progressive Interbrain and Brain-Language Model Alignment Reveal Transmission of
Representational Structure During Verbal Communication
Yulei Shen
Inter-Individual Brain Dynamics Collaboration Unit, Center for Brain Science, RIKEN
