

## Our performance

Since October 2006, the UHCT Alliance has been implementing the following domestic or multi-national clinical trials. summary as of March 2013

Item	Details	Counts			
Total		67			
	Multi-national	38			
Type of study	Asian	3			
	Domestic	29			
Cooperation of operability study of trail #	No. of Cooperation of operability study of trail for execution plan	9			
	No. of selection of hospitals by ours	41			
Cooperation for selection of hospitals \$	Days for selection of hospitals - without giving out paper, report for client and holiday	4-8			
Briefing session for collaborate protocol %	No. of trial / No. of approved by IRB	37 / 47 &			
	Under review by IRB	8			
	Approved by IRB	2			
Status of the implementation	Entry completed	45			
	Abort	5			
	Pending (Pre-IRB stage)	1			
	No establishment	5			
	The other	1			
	Times / trials	17 / 42			
Meeting of improvement progress	Requirements to hold a meeting 1) within 3 months from a clinicaltrial agreemeent 2) enrolled patients under 30% of contracted number of patients	March, September, December,2008 and monthly in principlesince then for projects meetingthe requirements			

- # As an optional case
- \$ Implementation after clients and our office have consulted
- $\bullet$  % Project staff manage progress of the trail after meeting of protocol.
- & There are 6 cases without briefing session, since each study is assisted by only one establishment.

## **Executing rate of completed entry for clinical trial until March 2013**

No	Serial No.	Indication	Type of trial Who	Who did select hospitals	Hospital for project	briefing session	No of Participating hospitals	Months for entry	Total agreements	Total implement- ations	Executing rate
1	A#1	Parkinson('s) disease	Domestic	Client	Tokyo	Jan-07	5	12	60	54	90.0%
2	A#3	Autosomal dominant polycystic kidney disease	Global	Client	Chiba	Feb-07	3	16	23	22	95.7%
