

RSC 日英セミナー

Open seminar: 'Challenges facing drug discovery in Japan and the UK – how can these challenges be met?'

2013年1月29日(火)
於 化学会館7階ホール

OBJECTIVE(S):

- To provide an overview to a range of stakeholders on the current drug discovery processes in Japan and the UK.
- To create a forum for the open discussion of current challenges facing translational medicine and thoughts on how these should be addressed.

1400-1430 Registration

1430-1435 Opening remarks

1435-1455 Introduction to the session - Dr Dayfdd Owen (Pfizer)

- Provide a very brief introduction on Target Validation
- Summarise key points from previous 1.5 days workshop at the British Embassy
- Similarities/Differences between UK and Japan

1455-1500 Q&A

1500-1520 Prof Chas Bountra (University of Oxford)
Drug discovery landscape in the UK

1520-1540 Dr Yoshinobu Hirayama (Ministry of Health, Labour and Welfare)
Medical Innovation Policy and Regulatory Initiative in Japan

1540-1545 Q&A

1545-1600 Coffee break

1600-1625 Professor Toshio Tanaka (Mie University)
Target Validation and Zebrafish-based Systems Pharmacology
ターゲットバリデーションとゼブラフィッシュによるシステムズ薬理学

1625-1650 Prof Andrew Hopkins (University of Dundee) *novel chemotype*
Adaptive Drug Discovery

1650-1715 Professor Toshio Miyata (Tohoku University)
Drug Discovery and Development from Academia
アカデミア発創薬・臨床開発

1715-1740 Professor Praveen Anand (Imperial College of London)
Target Validation for Novel Analgesics: Paradigm for Clinical Translation

1740-1745 Closing remarks

1745-1900 Networking reception

2000-2001

2000-2001: Challenges facing bird discovery in Japan and the UK - how can they be met?

2000-2001: Challenges facing bird discovery in Japan and the UK - how can they be met?

The following is a brief overview of the range of work that has been done on the current bird discovery processes in Japan and the UK. It is intended as a starting point for the open discussion of current and future bird discovery processes in Japan and the UK. It is not intended as a final report on the work done to date.

2000-2001: Registration

2000-2001: Open discussion

2000-2001: Open discussion - The David Green Project - The David Green Project is a project to establish a network of bird discovery groups in Japan and the UK. The project is currently in the early stages of development and is expected to be completed by the end of 2001.
