### 1. Astugi took the official site visit

Atsugi took the official site visit to become a member of International Safe Community on 16<sup>th</sup> June 2010. Prof. JoonPil Cho and Dr.Lee ChoungAh (Certifying Center for Safe Community Ajou University School of Medicine, Suwon, Korea), Prof. Lui Pai (Taiwanese Community Safety Promotion Center) visited to Atsugi as a judge. They was explained about activities and surveillance that Atsugi has been conducted, and visit on site where residents work for safety promotion, such as occupation safety, bicycle safety, child safety, school safety so on.

Communities promoting Safe Community participated in this site visit trough the kindness of Atsugi and appreciated to study about official site visit and many things for becoming a member of International Safe Community.

After the site visit over one and half days, judges thought highly of Atsugi's activities, and gave a comment that the activities almost covered six indicators. On the other hand, judges suggested that the application would be better to cover all program in spite of the number of sheets.

Atsugi will reflect the suggestion on site visit to the application, and apply to certify center again. The day Atsugi will be designated as Safe Community is coming here soon.

## 2.Kameoka an ijury surveillance concerning sport

Kmeoka is conducting an injury surveillance concerning sport, because the rate of getting injury during playing sport on the age group from 5 to 19 tends to be higher than other age group from the injury surveillance on 2007.

Before carrying out a measure for sport injury prevention, to get hold of the state of sport injury and make an effective program for injury prevention, Kameoka is carrying out the sport injury surveillance in cooperation with children and parents who are belong to regional football clubs.

Contents of surveillance are detail of injury in the last one year such as part, kind, time, place,

By Japanese Society of Safety Promotion

Kameoka has carried out comprehensive injury surveillance on 20 hospitals. At fist, Kameka intended to make an effective program for injury prevention using the date of the surveillance.

Although the trend of injury was cleared, it was difficult to clear up the causes of injury and was not lead effective program from the data. This sports injury surveillance was started based on the idea that it is necessary to get hold of the background of injury such us lifestyle so on.

It is a hurdle to carry out the injury prevention in promoting Safe Community. I think this work will provide other communities with useful information.

#### 3. Minowa and Komoro invited symbol mark for Safe Community

Komoro and Minowa invited a symbol mark for promoting safety promotion programs from public. They hope the symbol mark will be loved by citizen, as becomes a member of international Safe Community

Invitation was already closed. Their symbol mark will let you know on this news as soon as it is chosen.

### 4.Sakae Wards, Yokohama upped Web-page of Safe Community

Sakae Ward made a safe community web site and upped on July. Sakae was registered as a community under preparation to become a member of International Safe Community on last spring. Now their movement is getting more active, the web site is one of their activities. By holding common information with citizen, they try to spread and Safe Community Movement into citizen and promote their participation in activities.

The web site consists of five pages that are Activity, Injury data, Public relation, Education and Link page. The state of their work for safety promotion is on activities. The state of some injury in Sakae is on injury data page and information about a seminar and a symposium concerning safe community is on education page

On the top page the photograh Prof.Leif Svanstrom and Kiyotaka Mituda President of Sakae Ward were taken at the 19<sup>th</sup> international conference in Suwan Korea is on the top page of web site. It shows the enthusiasm of Pres. Mitsuda.

Ms Megumi Inasaka who made web-site said "As I don't know how to make web site at all, I have troubled a lot of colleague." I think her colleagues might know Safe Community by helping to make the web site.

Sakae will provide a lot of information about Safe Community on the web site. Please visit on the web site. <u>http://www.city.yokohama.jp/me/sakae/somu/safecommunity/</u> (Japanese Only)
